National Sustainable Development Strategy

## THE NATIONAL SUSTAINABLE DEVELOPMENT STRATEGY "NSDS 2035"

NSDS 2035 is the framework of reference for public policies and programs in implementing Morocco's Sustainable Development (SD) priorities. This strategy was developed through a consultative, collaborative and inclusive approach involving all stakeholders at both the national and regional levels, through four major stages.

## TRANSITION TO SUSTAINABILITY

*«We, courageous Moroccans, rich in our cultural heritage and in our natural and economic capital, are committed to the equitable development of our territories within a framework that favours inclusion, sustainability and inter-generational solidarity».*

**الاستراتيجية الوطنية للتنمية المستدامة**  
 ተወዳዳሪነት ለማረጋገጥ የሚያስፈልጉትን ጥረትና ጥረት  
**National Sustainable Development Strategy**

## TRANSITION TO SUSTAINABILITY

#### 4 Agile deployment in a changing national and international context

- DT1 Water, food and energy security;
- DT2 Sustainable Governance and Inclusive Territories;
- DT3 A competitive, low-carbon economy that creates wealth and jobs;
- DT4 People's access to health, education, transport and public services;
- DT5 Enhanced natural resources and ecosystems resilient to climate change;
- DT6 Cultural heritage preserved and enhanced.

- Human Capital;
- Economic, financial and fiscal instruments;
- Reforms and regulation;
- Innovation and R&D;
- Digital.

## STRATEGIC ECONOMIC, FINANCIAL, AND FISCAL INSTRUMENTS: PRIORITY MEASURES BEYOND 2024

To integrate NSDS funding budget commitments into the Finance Law of the Ministries and Local Authorities

To diversify and develop financing instruments to attract additional and innovative sources

To leverage Public-Private Partnerships to stimulate investment

To line up the national taxonomy with the international context by developing a legal framework (green taxation, carbon tax,...)

To promote the development of start-ups that create wealth and jobs through tax incentives
